What is BPM? Business Process Management (BPM) is a method of automating and managing all of your businesses processes. Also known as Intelligent Automation, or Digital Process Automation (DPA), it combines the flexibility of custom, end-to-end business solutions; the predictive power of machine learning; and freedom from the effort and expense of building hand-coded applications.

Process Model A graphical diagram that outlines all of the steps or activities that are required to complete a process. This model may include human and/or automated components, may be rigid or entirely ad hoc; and may be subject to frequent changes in response to changing market and business needs.

Key Benefits Save time and money \"No code\" means \"No. Code.\"
