It's the return of Point Horror for the Internet generation! Don't open the door. Don't answer your phone. And whatever you do, DON'T turn on your computer. . . . Cole and Greg love playing practical jokes through Wikipedia. They edit key articles and watch their classmates crash and burn giving oral reports on historical figures like Genghis Khan, the first female astronaut on Jupiter. So after the star soccer player steals Cole's girlfriend, the boys take their revenge by creating a Wikipedia page for him, an entry full of outlandish information including details about his bizarre death on the soccer field. It's all in good fun, until the soccer player is killed in a freak accident . . . just as Cole and Greg predicted. The uneasy boys vow to leave Wikipedia alone but someone continues to edit articles about classmates dying in gruesome ways . . . and those entries start to come true as well. To his horror, Cole soon discovers that someone has created a Wikipedia page for him, and included a date of death. He has one week to figure out who's behind the murders, or else he's set to meet a pretty grisly end.

Imminent death has never been so funny! Denton Little's Deathdate takes place in a world exactly like our own - except that everyone knows the day on which they will die. For Denton, that's in just two days - the day of his senior prom. Despite his early deathdate, Denton has always wanted to live a normal life - but his final days are filled with dramatic firsts. First hangover. First sex. First love triangle (the first sex seems to have happened not with his adoring girlfriend, but with his best friend's sister. Though he's not totally sure - see, first hangover). His anxiety builds when he discovers a mysterious purple rash making its way up his body. Is this what will kill him? Then a strange man shows up at his funeral, claiming to have known Denton's long-deceased mother, and warning him to beware of suspicious characters . . . Suddenly Denton's life is filled with mysterious questions and precious little time to find the answers. Debut author Lance Rubin takes us on a fast, gripping, and outrageously funny ride through the last hours of a teenager's life as he searches for love, meaning and (just maybe) a way to live on . . .

Beginning with those who reached or were born in the New World, explore to the starting points in their or their family's immigrations from the Old Country and beyond to the Germanic roots of these 3 family branches! This book, Volume I, starts with William Frederick Lynn – born in Indiana in 1882 and resided as well in Texas and Oklahoma throughout his life. Using this pedigree format, the researcher can then work back in time to the known origination of these Lynn/Linn ancestors. Nine generations are included in this volume that spans over 3 centuries. All books in this series provide extensive information about ancestors from personal data (name, gender, birth & death dates and places, religious affiliation and even occupations if known) to timelines with the ancestor's life events – often authenticated with transcripts from original records. As well, there is some information provided about their families along with pedigree charts for most ancestors and relationship charts between the starting ancestor and all other ancestors included. For ancestors to whom it applies, a DNA Confirmation section presents known AncestryDNA® matches and gives details about which children passed this DNA to descendants who match to the ancestor they have in common. This can include several generations of offspring from a particular ancestor. Note: The internal links are disabled in this online version and cross-referencing is unavailable. If we could transport ourselves back to the first century AD, would we know the year, date, day, and hour of the crucifixion of Jesus? Yes, we would. We may even have been an eyewitness. But can we know these time markers today? Yes, we can. In *The Day Jesus Died*, using biblical, historical, archaeological, and literary information of that century, readers will trace the time of Jesus' death to the very hour, of the very day, of the very year that the Savior was crucified. This is not some hocus-pocus pseudo-science. This is the real deal. Based on eyewitness, historical, and literary accounts and relying on the methods of telling time in the first century, readers can pinpoint the hour Jesus said, "It is finished." It's almost like being there.

This volume seeks to explain developments within the structure of the family in antiquity, in particular in the later Roman Empire and late antiquity. Contributions extend the traditional chronological focus on the Roman family to include the transformation of familial structures in the newly formed kingdoms of late antiquity in Europe, thus allowing a greater historical perspective and establishing a new paradigm for the study of the Roman family. Drawing on the latest research by leading scholars in the field the book includes new approaches to the life course and the family in the Byzantine empire, family relationships in the dynasty of Constantine the Great, death, burial and commemoration of newborn children in Roman Italy, and widows and familial networks in Roman Egypt. In short, this volume seeks to establish a new agenda for the understanding of the Roman family and its transformation in late antiquity.
