The New Southern Garden Cookbook

In The New Southern Garden Cookbook, Sheri Castle aims to make "\"what's in season\"" the answer to "\"what's for dinner?\"" This timely cookbook, with dishes for omnivores and vegetarians alike, celebrates and promotes delicious, healthful homemade meals centered on the diverse array of seasonal fruits and vegetables grown in the South, and in most of the rest of the nation as well. Increased attention to the health benefits and environmental advantages of eating locally, Castle notes, is inspiring Americans to partake of the garden by raising their own kitchen plots, visiting area farmers' markets and pick-your-own farms, and signing up for CSA (Community Supported Agriculture) boxes from local growers. The New Southern Garden Cookbook offers over 300 brightly flavored recipes that will inspire beginning and experienced cooks, southern or otherwise, to take advantage of seasonal delights. Castle has organized the cookbook alphabetically by type of vegetable or fruit, building on the premise that when cooking with fresh produce, the ingredient, not the recipe, is the wiser starting point. While some dishes are inspired by traditional southern recipes, many reveal the goodness of gardens in new, contemporary ways. Peppered with tips, hints, and great stories, these pages make for good food and a good read.

It is a Matter of Love

These are selected prose poems on love written in 2020. Answer Isn't it nice to live in a time that fills you with love? So, I became more transparent and smiled. Don't you feel that many of those stars have come together? There is little left to shine love. Yes, I know, and I know it is a matter of love, and it told me about the deep gaze. So, extend your hand to shake hands with the depths and overcome the strange absence. Yes, I will and we will celebrate. Imagine if I were sitting on the hill and not talking to you, what would be the fate of love? Yes, the fate of love; It is a matter of love.

Yoyu is the essence of having enough (or more than enough) time, money, energy, or other resources. Drawing from her experiences living in Japan for 30+ years and caring for her Japanese father-in-law, Marci explores seven essential aspects of yoyu, including time, energy, money, and spirituality. Through engaging stories and practical exercises, she guides readers on a journey to reclaim balance and abundance. Finding Yoyu is for you if: - Balancing family and work feels like an uphill battle and you want to learn how to leverage small pockets of time and focus on what truly matters. - Despite efforts to plan ahead, you face a persistent lack of energy and need energy-boosting strategies for everyday life and those emergencies when you accidentally hit exhaustion. - Helping family is a priority, but you're feeling financially constrained, struggling to see the positives, and need a way to recognize and leverage other forms of abundance. - Family members don't understand or respect your personal space needs, and the absence of dedicated space calls for ingenious solutions for communicating those needs and how you use shared spaces. - Avoiding issues is no longer an option, and you need to feel empowered and centered so that you can initiate difficult conversations with your loved ones. - Fatigue and stress from daily life lead to overreactions and inappropriate emotional outbursts that inadvertently hurt your loved ones and you need a way to intercept these outbursts before they occur. - Taking care of everyone and everything leaves you feeling tired, lonely, and disengaged and you need a way to tap into the interconnectedness of all things and find joy again. Targeted at women navigating the complexities of midlife, Finding Yoyu offers a unique blend of cultural insight, personal narrative, and actionable advice. Whether you're dreaming of starting a new career or nurturing your creative passions and instead feel the weight of caring for loved ones with nothing left over for yourself, this book will empower you to embrace abundance and live with purpose.

“A celebration of African American cuisine right now, in all of its abundance and variety.”—Tejal Rao, The New York Times JAMES BEARD AWARD WINNER • IACP AWARD WINNER • IACP BOOK OF THE YEAR • TONI TIPTON-MARTIN NAMED THE 2021 JULIA CHILD AWARD RECIPIENT NAMED ONE OF THE BEST COOKBOOKS OF THE YEAR BY The New York Times Book Review • The New Yorker • NPR • Chicago Tribune • The Atlantic • BuzzFeed • Food52 Throughout her career, Toni Tipton-Martin has shed new light on the history, breadth, and depth of African American cuisine. She’s introduced us to black cooks, some long forgotten, who established much of what’s considered to be our national cuisine. After all, if Thomas Jefferson introduced French haute cuisine to this country, who do you think actually cooked it? In Jubilee, Tipton-Martin brings these masters into our kitchens. Through recipes and stories, we cook along with these pioneering figures, from enslaved chefs to middle- and upper-class writers and entrepreneurs. With more than 100 recipes, from classics such as Sweet Potato Biscuits, Seafood Gumbo, Buttermilk Fried Chicken, and Pecan Pie with Bourbon to lesser-known but even more decadent dishes like Bourbon & Apple Hot Toddlies, Spoon Bread, and Baked Ham Glazed with Champagne, Jubilee presents techniques, ingredients, and dishes that show the roots of African American cooking—deeply beautiful, culturally diverse, fit for celebration. Praise for Jubilee “There are precious few feelings as nice as one that comes from falling in love with a cookbook. . . . New techniques, new flavors, new narratives—everything so thrilling you want to make the recipes over and over again . . . this has been my experience with Toni Tipton-Martin’s Jubilee.”—Sam Sifton, The New York Times “Despite their deep roots, the recipes—even the oldest ones—feel fresh and modern, a testament to the essentiality of African-American gastronomy to all of American cuisine.”—The New Yorker “Jubilee is part-essential history lesson, part-brilliantly researched culinary artifact, and wholly functional, not to mention deeply delicious.”—Kitchn “Tipton-Martin has given us the gift of a clear view of the generosity of the black hands that have flavored and shaped American cuisine for over two centuries.”—Taste

Aromatherapy is one of the most popular forms of natural therapies available to us. What makes essential oils so exciting is that they are the only 'plant-based remedies' that work on all levels of our wellbeing — our physical, emotional, mental and spiritual wellbeing. As an aromatherapy educator, I often notice how frustrated people become when they have to learn the individual properties and actions of essential oils. The Aromatree identifies the relationships that exist between the individual essential oils and the different parts of a plant such as leaves, roots, resin, wood, fruits, seed or flowers. In Aromatree, we examine the relationship and pattern between the botany of the plant, traditional folklore, symbolism, mythology of plants, aroma, chemistry, pharmacology, essential oil safety, our psyche, our personality, the chakras, the energetics according to traditional Chinese medicine and Ayurveda, and blending tips. Aromatree embraces all aspects of aromatherapy. Whether you are a beginner or a professional aromatherapist, you will gain an incredible insight into using essential oils.

The Tryal and Condemnation of Sir William Parkyns,

Tropical root and tuber crops form an important group of food crops for millions of people (about one-fifth of the world population), especially those living in the tropical and sub-tropical zones. Tuber crops are the third important food crops after cereals and grain legumes. The carbohydrates synthesized in the leaves and stored

in the form of starch in the underground roots and tubers, which are not only for food, but also a raw material for several industries. Among the many tuber crops available, only a few have been domesticated and widely cultivated for edible and industrial purposes. This book addresses the principal issues connected with selected tuber and root crops, their origin, global distribution, cultivation details, and their global commercial potential, vis-à-vis the end products made out of them (value addition). Among the crops, sweet potato, cassava, yams, colocasia, west Indian arrowroot, asparagus, safed musli, Indian Bread root and gloria superba will be discussed. From various projections, it is evident that by the year 2050 the world population will face a serious food shortage, if current trends in cereals consumption is taken into account. That is why root and tuber crops assume great importance. Contrary to the high-fertility soils, which are a requirement for principal cereals like rice and wheat, root and tuber crops can grow quite well in poor soils, under varying climatic conditions.

This study investigates the functions, meanings, and varieties of forms of address in Shakespeare's dramatic work. New categories of Shakespearean vocatives are developed and the grammar of vocatives is investigated in, above, and below the clause, following morpho-syntactic, semantic, lexicographical, pragmatic, social and contextual criteria. Going beyond the conventional paradigm of power and solidarity and with recourse to Shakespearean drama as both text and performance, the study sees vocatives as foregrounded experiential, interpersonal and textual markers. Shakespeare's vocatives construe, both quantitatively and qualitatively, habitus and identity. They illustrate relationships or messages. They reflect Early Modern, Shakespearean, and intra- or inter-textual contexts. Theoretically and methodologically, the study is interdisciplinary. It draws on approaches from (historical) pragmatics, stylistics, Hallidayean grammar, corpus linguistics, cognitive linguistics, socio-historical linguistics, sociology, and theatre semiotics. This study contributes, thus, not only to Shakespeare studies, but also to literary linguistics and literary criticism.
